Game FAQ1) What are the green, blue, red, and purple banners above the generals? These are the health improvements that allow your general to have more health in your unit. Lots of more specific information What are the generals I should have? The game strictly requires you to have a strong selection of good generals that may allow you to complete the game, but you can also choose to purchase some unorthodox generals of interest to you. The suggested general lists along with the overview can be found here: Suggested General Routes Overview and Information3) Do I need to spend money to complete the game?No. This is a free grinding game, where you can complete the game relatively easily without spending a single penny. There are many ways to win medals!4) How do I win medals or get more resources? You can win medals by playing conquests, achieving scenarios, playing domination battles, finishing daily invasions and unlocking achievements.5) How do I gain experience to level up my headquarters? Thank you for your suggestion, but I decided to use spoilers for the following reasons:1. The links open a new tablad, your device will be full of them.2. These new pages take time to load, especially for those with low-end mobiles.3. You can see everything in the same post that you don't get redirected everywhere. 4. I can categorize more easily, as for example I wouldn't do a separate campaign link for born only, but now I can make a small spoiler for it.5. These small categories also make it easier for the user to find what they need, as they can easily show and hide spoilers for the (subcategories)category they are looking for.6. Links cost more time for me than a simple spoiler note. Thank you for your suggestion, but I decided to use spoilers for the following reasons:1.
